*...just like having your own nurse on site!*

NBSIA's new toll free workplace injury reporting service (Company Nurse) has now been in place since November 1, 2006. After a brief adjustment period, the program is running smoothly with some positive initial results. A major goal of the program was to provide our members with an effective way to report new work injuries, which also provided superior service and medical advice to member employees. The program is easy to access by calling a toll free number where new injury reports are taken by trained registered nurses. Callers receive triage advice and medical referral if necessary.

NBSIA staff is available to answer questions or to provide training if needed. Please feel free to contact Kami Linan, Workers' Compensation Manager at 707/428-0824 Ext. 110 for questions or additional information.

The banner features the Company Nurse ON CALL logo on the left, a group of five healthcare professionals in white coats in the center, and a list of benefits and the phone number on the right.

- Cost Effective
- Produces Impressive Results
- Makes Good Business Sense
